PATENT SLATE PAINT,

MIXED READY FOR USE.

Fire-proof, Water-proof, Durable, Economical and Ornamental. A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and iasting longer than the new shingles without the slate, for

One-third the Cost of Reshingling. The expense of slating new shingles is only about the cost of simply laying them. The paint is rime-riscor against sparks or flying embers, as may easily be tested by any one.

IT STOPS EVERY LEAK,

And for tin er iron has no equal, as it expands by heat, contracts by cold, and NEVER CHACKS nor scales. Boofs covered with Tar Shesting Felt can be made water-tight at a small ex-pense, and preserved for many years.

This Slate Paint is EXTREMELY CHEAP.

Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy bony it is easily applied with a brush. No Tar is use in this Composition, Therefore it neither cracks in Winter, nor runs

On decayed shingles it fills up the holes and peres, and gives a new substantial roof that will last for years. CURLED or WARFED shingles it thrings to their places, and keeps them there. It fils up all holes in Felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contain Tan, be sure you obtain our GENUINE article, which (for shingle roofs) is
